

2014 - 2015
BG Library Media Centers
Annual Report

Rachel Klug
BG Library Media Specialist

Building a Community of Readers @ Your BG Libraries

Mission Statement

The library media program at Bruce Guadalupe is based on the concept of free access to information that reflects the cultural diversity and the pluralistic nature of a global society.

This free access is available to all students and staff. In support of this concept, the program seeks to foster inquiry and learning by enhancing the instructional program through information literacy.

The ability to locate, evaluate, and apply information is necessary in order to be a productive citizen in our complex society.

The library media center is the gateway to the array of information resources available.

The library media program is committed to the responsibility for ensuring that all students will become discerning information consumers and thereby perpetuate the goal of lifelong learning for

Goals

Students are motivated and independent learners.

The library is a powerful intellectual and social space where students and teachers gather ideas, exchange points of view, and learn together.

The library program supports a culture of literacy throughout the school.

The library fosters a professional learning community.

Digital Passport is an online curriculum designed to teach children how to safely and responsibly navigate the Internet. The courses can be accessed for free by the instructors, who are then able to monitor the students' progress. Digital passport lessons are presented as games that reward progress with badges. Students access their accounts via Destiny.

BGMS Library Digital & Information Literacy Curriculum 6th - 8th Grade

The BGMS Library uses the Common Sense Media curriculum & the online Rosen Digital Literacy curriculum. Click on the links for more information about standards, objectives, and lessons.

A screenshot of the Digital Literacy website. The page has a dark blue header with the title "Digital Literacy" and a search bar. A left sidebar contains a list of categories: Cyberbullying and Safety, Communication Basics, Social Networking, Privacy and Digital Ethics, Search and Research Skills, Tools for the Digital Age, Careers and Entrepreneurship, Internet Biographies, Gaming, Interactive Activities, and Resources for Teachers & Librarians. The main content area features three sections: "Take a Closer Look" with a video player and text about location-based services; "Making Sense of It" with an article about network engineering and a photo of a woman; and "Brain Teasers" with a multiple-choice question about computer security terms.

Thank You!

Thank you to all the teachers, staff, and students for helping to make the library program a success.

Thank you to Mr. Navarro, the BGMS principal, and Mr. Rodriguez, the BGCS principal, for their continued support of the library program.

A special thank you to Mrs. Loera & Mrs. Martinez for all their hard work during the 2014 - 2015 school year. The library program would not be a success without them!
